RE: MB Docket 10-56

Dear Chairman Genachowski:

As a Comcast customer, I fully support the joint venture with Comcast and NBC Universal. This is good for the business and good for consumers.

In addition, I believe this merger will be advantageous for the entire cable / telecommunications industry as well as for future programming and in no way will create conflicts of interest.

Your thoughtful consideration and approval of this joint venture is greatly appreciated.

Sincerely,

Melissa Huerta

Re: MB Docket No. 10-56

Dear Chairman Genachowski,

As a member of the Colorado Springs City Council and a United States veteran, I am writing in support of Comcast's proposal to partner with NBC Universal.

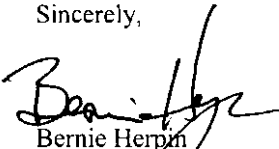

With an estimated population of more than 400,000, Colorado Springs is the second most populous city in Colorado, behind Denver, and it is among the 50 most populous cities in the United States. Our city covers 195 square miles, making it Colorado's largest city in area. We were selected as the No. 1 Best Big City in "Best Places to Live" by *Money* magazine in 2006, and Colorado Springs placed No. 1 in *Outside Magazine's* 2009 list of America's Best Cities.

Before joining City Council in 2006, I served in the U.S. Navy submarine service and the U.S. Air Force. I later became a senior information system analyst at Lockheed Martin, supporting the 1st Space Operations Squadron at Schriever Air Force Base. I have served on several city, county, and state boards and commissions.

As an active resident and leader in Colorado Springs, I have seen first-hand the commitment that Comcast brings to our community. From Comcast Cares Day, in which local Comcast employees from all levels of the organization pitch in to improve the quality of life here, to Comcast's charitable donations, sizable employment, local news programming and infrastructure investments, this company is a leader in Colorado Springs.

Comcast's continuing success translates into continuing and growing support for our communities, more tax revenue for our state and local governments, and more secure employment for our residents. From improving broadband access here to the airing of public service announcements, Comcast has proven itself to be a company with local focus. I am confident that Comcast's partnership with NBC Universal will bring even more resources, talent, and commitment to Colorado Springs, and I encourage you and your fellow Commissioners to support this joint partnership.

Sincerely,

Bernie Herpin
Council Member District 4

RE: MB Docket 10-56

Dear Chairman and Commissioners:

I am forwarding this correspondence to you to request your support for approval of the proposed NBC Universal joint venture between General Electric Corp and Comcast Inc.. I am a believer that our country will benefit by having a major network like NBC managed and supported by two strong corporate entities like GE and Comcast. The technology, innovative ingenuity, and financial backing of both companies will help to ensure that NBC will make it way back to providing our citizens with the robust media and news they are looking for.

I realize there are a number of special interest groups who want to block this venture for a number of selfish reasons. I ask that you provide the visionary leadership necessary to see beyond the short sighted positions and support what is best for US consumers.

Thank you for the work you do in support of ensuring effective, balanced, fair, and equal communications and media across our great country.

Sincerely,

G. Wayne Davis

RE: MB Docket 10-56

Dear Chairman and Commissioners:

I am writing to let you know that I support the Comcast-GE joint venture to operate NBC Universal (NBCU). I believe that it will provide for many synergies within our industry and to the customers we serve. When this transaction is complete, broadcast is going to have another revenue stream that will allow it to have better content, which will bring more viewers, and that will be a good thing for NBC

Community and Culture. I am an employee of Comcast and know that Comcast also has a deep commitment to the community - having personally participated in numerous Comcast Cares day the impact Comcast has on the community is significant. Having started at Comcast right after the AT&T acquisition I know that Comcast values the culture each acquisition brings with them.

My hope is that the commission moves forward in the approval of the joint venture.

Sincerely,

Sarah K Bryant

RE: MB Docket 10-56

Dear Chairman and Commissioners:

I am in support of the Comcast – NBC joint venture. Comcast being a Philadelphia based corporation has brought revenue to the business community and has continued to support progression in the communities it serves as a direct result of Comcast's sustained growth and expansion.

In particular, their support of Diversity is unmatched in this country and as the owner of a minority owned company doing business nationally, I can attest to it firsthand. Purchasing from diverse companies is only part of supporting diversity; to understand the importance of partnering is critical in helping a business to learn and grow. To have a relationship with an organization as responsible in the business community as Comcast, gives a company creditability which cannot be purchased. Companies can also learn from Comcast what it means to be a good Corporate Citizen which is responsibility to people and communities.

The Comcast – NBC joint venture can only enhance, not control, the information that is broadcast to the general public. With the amount and accessibility of information on the World Wide Web and the versatility in the over the air programming (ABC, CBS, FOX), the proposed joint venture does not restrict or infringe on my ability to access and process information.

NBC has experienced loss in viewership in the past year, and as a major television network has not performed up to the expectations of the investors, advertisers and the general public. Comcast can potentially restore NBC viewership while, as stated by Brian Roberts Comcast CEO, "the NBC broadcast network would remain free to over-the-air viewers." (*New York Times*, By Brian Stelter, Published: February 4, 2010)

Comcast services remain versatile, entertaining and beneficial. The organization has proven successful during a trying economy and I envision likewise success for the Comcast – NBC joint venture.

Sincerely,

Gary L. Maddox
Principal, CEO

RE: MB Docket No. 10-56

Dear Chairman Genachowski and Commissioners:

I appreciate your offering the opportunity to share my thoughts on the proposed joint venture between Comcast Corporation and NBC Universal on behalf of the people of Michigan's 52nd State House District.

Our community has greatly benefited from its partnership with the Comcast Corporation. The company is a significant employer in our area due to having located one of its call centers in my district. In addition, Comcast has supported numerous charitable causes in our area, including one in support of a local children's museum and Ann Arbor's Neutral Zone. It has shown that it is not simply an industry located in our community but an active supporter of community life and our residents.

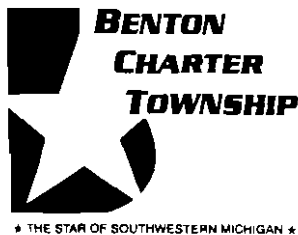

I am also appreciative of Comcast's efforts to increase the digital literacy of people of all age groups through its support of the Digital Connectors program, which teaches young people to harness of the economic power of the Internet and then pass their knowledge along to members of the community. As a member of the Michigan House Committee on New Economy and Quality of Life, I have worked to promote job growth by attracting and nurturing high tech businesses to Michigan. Comcast's willingness to support digital literacy has complimented our efforts.

The kind of corporate responsibility and community involvement found at Comcast should be a lesson to all of America's businesses. I hope this provides you with some sense of this company's value to the people of my district and that you will keep this in mind as you consider the Comcast-NBCU joint venture.

Sincerely,

Pam Byrnes

Re: MB Docket 10-56

Dear Chairman and Commissioners:

I am the Treasurer of Benton Charter Township located in Benton Harbor, Michigan. I have had a unique opportunity to see first hand how Comcast has had a direct impact on the people who live and work in our community. It is not terribly difficult to be a "corporate partner" - a lot of companies are - they write a check, smile for the photo-op, and we never see them again. Not so with Comcast.

Working along side the Manager of Corporate and Government Affairs, Lori Masapollo, and a contingency of Comcast employees at the Benton Harbor/Benton Township Senior Center, I watched a transformation take place. Old broken down furniture was replaced with new, a computer lab was installed, and an up-to-date library was created. Comcast listened and responded to the needs of the Center and as a result a real and lasting friendship was formed. Our senior citizens finally had a building that they could truly enjoy and be proud of.

One of the goals of the Benton Charter Township Board of Trustees is encouraging and assisting with home ownership. We actively partner with Harbor Habitat in reaching this goal. The Township sold eight acres of property for \$1.00 to the organization in order to build an entire neighborhood. We are proud to say Crystal Estates was just completed in the summer of 2009 and once again Comcast was right there in the middle, working side by side with homeowners landscaping yards, creating a beautifully designed entrance to the subdivision, and giving a financial donation as well.

A couple of weeks ago I attended a Comcast Cares Day event at our local VFW Post 1137. The turnout of workers was once again most impressive. Comcast employees assisted by local volunteers removed and replaced old, stained, ceiling tiles, polished paneling and floors, and helped fill care packages to be sent overseas to our soldiers. Everyone, including myself, was humbled by the effort and genuine caring of the Comcast family.

As you can see "Comcast Cares" is not just a slogan. This Company and its employees are real partners in transforming lives in the Benton Charter Township community. I sincerely submit this letter of support on behalf of Comcast Corporation without reservation.

Very truly yours,

Debra A. Boothby, Treasurer
Benton Charter Township

Re. MB Docket No. 10-56

Dear Chairman Genachowski,

As a long-time public servant, consumer advocate and community volunteer, I am writing to express my support for Comcast's proposal to acquire NBC Universal. Comcast stands out as a corporate citizen in El Paso County, Colorado, and I have every reason to believe a union with NBC Universal would benefit both companies and the communities they serve.

El Paso County encompasses more than 2,100 square miles and is home to more than 600,000 residents. I was first elected County Commissioner in 2002 and in 2005 and 2009 I was selected by my peers to serve as Chairman. Throughout this experience, I have had the opportunity to observe the impact Comcast has made on our county from an employment and tax revenues perspective, and I am impressed by the level of investment Comcast has been willing to make here. In fact, Comcast even provides free broadband and phone services to many of our municipal buildings and schools, including the County Commissioners Office in Colorado Springs.

I have had the pleasure of attending numerous Comcast events and been able to speak to countless Comcast employees who take pride in working for a company committed to building their community. Comcast's public service announcements and local programming provide essential visibility for various community endeavors, and a local Comcast executive serves on our County Planning Commission. All of

this comes on top of what the company does by acting as a reliable member of our business community.

I know Comcast to be a corporation committed to the communities of El Paso County. Its success translates into job security for our residents, much-needed tax revenue for our local and state governments and resources for our people. I encourage you to approve its joint partnership with NBC Universal, and I do so fully confident that this acquisition will enhance Comcast's already strong commitment to the well being of El Paso County.

Dear Chairman and Commissioners:

I am an employee of Comcast SportsNet, and I am writing to endorse the proposed Comcast-GE joint venture to operate NBC Universal (NBCU).

I have worked for Comcast SportsNet for the past five years, after having worked previously for various other media companies, the National Football League, and several University athletic departments.

More than any other company or organization I have ever worked for, Comcast has impressed me with its commitment to provide a quality workplace experience for its employees on every meaningful level, in addition to providing valuable and useful products for its customers.

Comcast has also demonstrated a strong commitment to the communities in which it operates its businesses through such annual events as Comcast Cares Days and other similar initiatives.

The proposed Comcast-GE joint venture to operate NBC Universal would, in my view, extend the scope and influence of Comcast's core business culture in many new ways that would serve the communications industry, and the country at large, very well.

Sincerely,

Larry Eldridge

RE: MB Docket No. 10-56

Dear Chairman Genachowski and Commissioners:

Comcast has also been a long-time supporter of community events and initiatives in the City of Somerville. It has been an annual contributor to the Somerville Spring Clean-up and has been the leading sponsor of our long running Somer Moviefest, a family film series presented on summer nights throughout the city. Comcast has also been a friend of the Somerville High School athletic program, providing our exceptional student athletes with an opportunity to compete while expanding their athletic and academic experiences. With Comcast's support, many of our student athletes have graduated and moved onto some of the nation's top athletic, academic and leadership institutions.

Comcast is an important civic contributor. We are proud to have Comcast as a local service provider and community supporter.

Thank you for your time.

Dear Chairman Genachowski:

I am writing to comment on Comcast's proposed partnership with NBC Universal, which I understand you are currently reviewing. As the Town Administrator of Bellingham, Massachusetts, I can speak from experience about Comcast's dedication to our community.

Bellingham is a vibrant town of 16,000 residents. Comcast has been a tremendous asset here. In addition to being a good employer and service provider, Comcast takes a keen interest in programs that enrich the lives of our children. For instance, the company sponsors a special soccer camp that sent more than two dozen youngsters to Gillette Stadium with the New England Revolution soccer team. It is a great experience for the kids who will, no doubt, remember that trip for the rest of their lives. And thanks to Comcast, Bellingham's past annual 4th of July fireworks displays have been spectacular. We could not afford to put it on without the company's generous support.

While I am not in a position to offer support on the merits of their application, we do have a longstanding relationship with Comcast which has been solidified over the years with trust and good faith performance within our community.

Sincerely,

Denis C. Fraine

Re: MB Docket No. 10-56

Dear Chairman Genachowski:

On behalf of the United Way of Lebanon County in Lebanon, Pennsylvania, I am writing to express my support of Comcast and its proposal to join with NBC Universal. The United Way of Lebanon County has been the beneficiary of Comcast's extraordinary local commitment for many years. We truly value our partnership.

My organization works to improve lives by supporting and maximizing community resources. Many programs in Lebanon County depend on us to raise the funds and provide the support to sustain their operations. In these difficult times, executing our mission is harder than ever. Because of reliable partners like Comcast we are meeting needs and making services available to our neighbors. We cannot thank Comcast enough. Without its critical support we would struggle to maintain access to after school programs for our youth, financial counseling for families and support programs for those in crisis. From our perspective, Comcast is a part of the solution in Lebanon County.

Comcast is also a tremendous source of volunteer resources for the United Way Day of Caring. It also hosts its own large-scale volunteer effort called Comcast Cares Day. Because the two events fell on the same day this year, Comcast, United Way and Habitat for Humanity joined together to create a community vegetable garden in a previously vacant city lot. Thanks to Comcast employees' volunteer efforts more than 40 low-income families will enjoy fresh vegetables throughout the growing season. The company has committed to expand and improve the site next year. Furthermore, Comcast is always doing what it does best. It provides courtesy internet services to many of our schools and libraries.

Through the support of partners like Comcast, the United Way of Lebanon County can fund 35 different agencies and programs in our area that provide much needed services for our friends and neighbors. We cannot adequately explain what that means to us and our community members locally. I hope the FCC will consider Comcast's investment in the communities it serves and our support for the Comcast and NBC Universal partnership in its review.

Sincerely,

Emily Guilliams

*The vision of New Haven's children
is our city's greatest resource*

June 3, 2010

The Honorable Julius Genachowski, Chairman
Federal Communications Commission
445 12th Street, SW
Washington, DC 20554

Re: MB Docket No. 10-56

Dear Chairman Genachowski:

I realize that it is the duty of the FCC to investigate the union of two national communications companies like Comcast and NBC Universal. As the Mayor of New Haven, Connecticut I would like to go on record as approving this venture.

Comcast has been a great partner with the City of New Haven. An outstanding example of our partnership is Comcast Cares Day. For years, the New Haven Boys & Girls Club had been unable to update its space on Columbus Avenue. Thanks to Comcast Cares Day, the wait is over. This past April, Comcast employees, families and friends joined hundreds of volunteers in painting, repairing and generally renovating the Club, making it a more welcoming place for the children it serves.

In 2008, Comcast employees and their families turned out along with LEAP and United Way of Greater New Haven to install our "Born Learning Trail." This Comcast Cares Day initiative was the second of its kind in our state and is a great learning tool for students at Conte West Hills School where it is located.

Comcast is also a proud supporter of the City of New Haven's Summer Youth@Work program, which provides summer employment opportunities, workplace exposure and work readiness activities to youth who may be challenged by socio-economic or academic barriers to workplace success. Also, Comcast is a partner in Read to Grow, Inc., our effort to end illiteracy. Last year, Comcast announced a \$10,000 grant to Read to Grow, Inc. for the "Books for Kids" program. This funding made the distribution of 10,000 new and gently used books possible to New Haven's students. At the kickoff event, Comcast distributed books to 150 children of limited means to encourage literacy by increasing families' access to books.

Comcast also supports musical literacy in the New Haven school system. With Comcast's help, the VH1 Save the Music Foundation celebrated its tenth anniversary in 2007 by providing tens of thousands of dollars worth of new musical instruments to restore the music education programs in two of our public schools. A celebration event was held at the John C. Daniels Middle School to allow school officials and community members to see first-hand the positive impact music has on students.

In addition, Comcast provides cable and broadband services to our schools, libraries and to our Boys & Girls Club as a courtesy.

The programs that Comcast supports in New Haven enrich our quality of life at a time of economic challenges. We are very grateful to Comcast.

I believe Comcast's union with NBC Universal will be a great success. I ask you to support it.

Very truly yours,

John DeStefano, Jr.

Re: MB Docket No. 10-56

Dear Chairman Genachowski:

As a member of Philadelphia City Council's Committee for Public Property, which governs cable franchise activities in the city, I have worked closely with Comcast over the years. I have also witnessed the company's commitment to our city. I am very proud of the company's leading position as a corporate citizen and technology innovator, and I recommend that you approve Comcast's request to partner with NBC Universal.

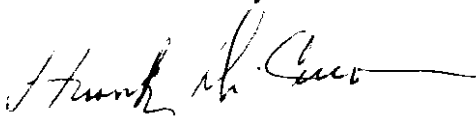

As you know, Comcast is a cable and broadband innovator for homes and businesses – and beyond. I have worked diligently to provide wireless hubs in South Philadelphia's business district, and Comcast has been my partner in making this possible. The company was eager to work closely with me in building test hubs for this initiative and is now the provider for this service.

Comcast has also demonstrated its commitment as a corporate citizen by providing broadband service and electronic whiteboards or "smart boards" to two local schools in my district, Goretti and Neumann Catholic High Schools. In fact, Comcast provides courtesy broadband service to most of the elementary, middle and high schools in my district. Furthermore, Comcast has gone well beyond its obligations in its franchise agreement by providing free cable and Internet service to our municipal buildings. It also helped the City of Philadelphia establish channel 64, our government access station, allowing residents of Philadelphia to view council hearings and other key government events throughout the year.

No. of Copies rec'd 0 + 4

FCC Mail Room

June 7, 2010

The Honorable Julius Genachowski
Chairman
Federal Communications Commission
445 12th Street, SW
Washington, DC 20554

Re: MB Docket No. 10-56

Dear Chairman Genachowski:

When I was elected the first woman mayor of Brockton, Massachusetts back in January, I vowed to improve the city's use of communications tools. Today's digital communications tools are some of the most important resources that a community can have in this day and age, and one of the top communication companies in our area is Comcast. Today, I am writing to ask the FCC to approve the proposed union of Comcast and NBC Universal.

Although I have been mayor for a short time, I have served on Brockton City Council for 12 years, so I am aware of the many contributions that Comcast makes to our community. In February, for example, I had the privilege of participating in the African American Read In at the Boys and Girls Club of Brockton, a Comcast-supported event. This is one of the many ways that Comcast works to promote literacy in Brockton.

Another way that Comcast promotes literacy-digital literacy-- is by supplying courtesy broadband service to our schools and libraries. This enables children who do not have computers at home to develop their skills so they can succeed at school and in life. It is very important that our children are not left behind as technology advances.

There are many challenges to being mayor, even of a middle-sized community just short of 100,000 residents like Brockton. Working with a company like Comcast makes my job that much easier.

I hope the FCC agrees that Comcast's prospective union with NBC Universal is a venture that has a great deal of potential. I urge you to approve the proposal before you.

Sincerely,

Linda M. Balzotti
Mayor- City of Brockton

El Paso County encompasses more than 2,100 square miles and is home to more than 600,000 residents. I was first elected County Commissioner in 2002 and in 2005 and 2009 I was selected by my peers to serve as Chairman. Throughout this experience, I have had the opportunity to observe the impact Comcast has made on our county from an employment and tax revenues perspective, and I am impressed by the level of investment Comcast has been willing to make here. In fact, Comcast even provides free broadband and phone services to many of our municipal buildings and schools, including the County Commissioners Office in Colorado Springs.

I have had the pleasure of attending numerous Comcast events and been able to speak to countless Comcast employees who take pride in working for a company committed to building their community. Comcast's public service announcements and local programming provide essential visibility for various community endeavors, and a local Comcast executive serves on our County Planning Commission. this comes on top of what the company does by acting as a reliable member of our business community.

I know Comcast to be a corporation committed to the communities of El Paso County. Its success translates into job security for our residents, much-needed tax revenue for our local and state governments and resources for our people. I encourage you to approve its joint partnership with NBC Universal, and I do so fully confident that this acquisition will enhance Comcast's already strong commitment to the well being of El Paso County.

Sincerely,

RE: MB Docket No. 10-56

Dear Chairman Genachowski and Commissioners:

As someone who has held elected office for the past eighteen years in the Michigan State Senate, Michigan State House and as Clerk of Gaines Township, I know from personal experience that good government is essential for sustaining communities but cannot solve every problem. Frequently, the contributions of corporations and individual citizens are every bit as important.

With this in mind, I am writing to you today regarding your oversight of the proposed combination of Comcast and NBCU. Although I cannot address the merits of the merger itself, I am pleased to tell you that Comcast and its employees have made a huge difference in my community.

The volunteer spirit of Comcast's employees is profound. During last year's Comcast Cares Day, for example, approximately 2,400 volunteers contributed more than 11,000 hours of community service to local nonprofit organizations across Michigan. In coordination with the Michigan Mobility & Accessibility Partnership, which I chair, we worked with Comcast and our collective efforts resulted in the construction of wheelchair-accessible ramps at five homes. One of the new ramps was built at the home of a disabled Rockford resident in my district. In addition, as part of Comcast Cares Day, Comcast has provided volunteers for the past two years to help maintain the White Pine Trail in my district. This year, over 100 Comcast volunteers gave their time to help beautify this great asset in West Michigan.

In your evaluation of Comcast and its pending merger, I hope you'll take into account the company's longstanding dedication to giving back to those in need.

Sincerely,

Mark C. Jansen

Re: MB Docket No. 10-56

Dear Chairman Genachowski,

I am writing on behalf of the Shawsheen Valley Regional Technical School regarding our relationship with Comcast and what it has meant to our students.

Our school, located in Billerica, Massachusetts, offers students a high school experience that optimizes student attitude, achievement and skills by integrating vocational-technical and academic curricula in order to prepare them to begin adult life and careers immediately and independently.

Our goal is to prepare our students to enter the workforce in new and emerging occupations, effectively equipping them to begin careers as skilled workers and technicians or to prepare to pursue post-secondary education.

We believe that providing a good high school experience for our youngsters means setting them up for a positive future as productive citizens in our community. But our mission is large, and we know we must also recruit help from employers in our area. Comcast is one that has stepped up in a big way. They have continually supported us, whether by having Tim Murnane, Comcast Vice President of Government and Community Affairs, partner with our school on many initiatives or by providing grant money for our at-risk youth after school program.

As you consider the joint venture between Comcast and Universal NBC, please bear in mind that Comcast is a vital part of our community. Its reach goes beyond providing jobs; its presence is also felt in the preparing our youth for a promising future.

Sincerely,

Re: MB Docket No. 10-56

Dear Chairman Genachowski,

Based in California, New America Media (NAM) is the country's first and largest national collaboration and advocate of 2,000 ethnic news organizations. Ethnic media is the fastest growing sector of American journalism and as such our organization's goal is to bring the voices of the marginalized into the national discourse. We do this by producing, aggregating and disseminating multimedia content and services for the youth and ethnic media sectors.

NAM's long-standing partner in the effort to reach ethnic communities is Comcast Corporation. The company has shown continued dedication to providing a platform to sectors of our population that are simply not heard from enough. Comcast was among the first corporate sponsors of NAM's national Expos, helping draw others to our marquee. By supporting our organization, Comcast ensures that greater numbers of ethnic media outlets will be recognized and included in NAM's nationwide online directory. The importance of this function cannot be overstated, as close to 60 million ethnic adults connect to each other, home countries and to America via ethnic media sources every day.

Comcast should also be recognized as an important platform for ethnic communities. For example, Comcast's San Francisco Bay Area's GET LOCAL Channel and its ON DEMAND service showcase ethnic media video reports. These are the stories that reflect who we are becoming as a global society.

We could not share our message or give voice to those who need it without Comcast's support.

As you explore the opportunity for Comcast and NBC Universal to join, we hope you will keep our experience with Comcast in mind. We are highly supportive of the proposal.

Sincerely,

Sandy Close
Executive Director
New America Media

RE: MB Docket 10-56

Dear Chairman Genachowski:

I am writing to support the proposed merger between Comcast and NBC. I have been working for Comcast in the Government Affairs department for four months and have had a great experience. In my previous job I was working on public policy issues at the State Capitol in Sacramento, California and know first hand how important policies and regulations affect consumers and people who live in different communities.

The merger is a step in the right direction in providing consumer quality content and programming. I have been impressed with the quality of leadership and diversity within the company and fully support the merger.

Sincerely,

Lennies M. Gutiérrez
